Dear Alex,

Reviewing episodes of the program "WILD WONDERS at the San Diego Zoo," and I am confident that it meets the educational and informational needs of children 13 to 16 years of age with its program content. The series explores the lives of various zoo animals while examining unique critters in the animal kingdom.

For instance, episodes focus on lesser known animals such as Yellow-legged Frogs and Guinea Fowl. The series also shows how the dedicated staff at the San Diego Zoo care for these critters. Additionally, each episode examines the animals' living environment, while providing detailed explanations of the particular animal species.
